1 Identification of substance:

- · Product details:
 - Trade name: iBOND Total Etch
 - · Application of the substance / the preparation Dental bonding material
 - · Manufacturer/Supplier: Heraeus Kulzer GmbH

Grüner Weg 11, D-63450 Hanau

Information department:

Dr. Hoffmann

Tel.: +49 6081 959-313

Fax: +49 6081 959-223

email: marcus.hoffmann@heraeus.com

· Emergency information:

Call "Poisining Emergency Center Berlin": +49 30 30686 790 (24 hours, support in english and german language)

2 Hazards identification

· Hazard description:

Xn Harmful

Information pertaining to particular dangers for man and environment

The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.

R 10 Flammable.

R 20/22 Harmful by inhalation and if swallowed.

R 37/38 Irritating to respiratory system and skin.

R 41 Risk of serious damage to eyes.

R 42/43 May cause sensitization by inhalation and skin contact.

· Classification system

The classification was made according to the latest editions of the EU-lists, and expanded upon from company and literature data.

NFPA ratings for USA (scale 0-4)

Health = 2 Fire = 3 Reactivity = 0

· HMIS-Ratings (Scale 0-4)

HEALTH FIRE 3

Health = *2 Fire = 3 REACTIVITY | Reactivity = 0

3 Composition/Data on components:

· Chemical characterization

Dangerous components:		
64-17-5 ethanol	F; R 11	25-50%
868-77-9 2-hydroxyethyl methacrylate	XI: R 36/38-43	10-25%

	(Conto	(, of page 1)
Poly(methacrylic-oligo-acrylic acid)	Xī; R 36	0-5%
70293-55-9 4-methacryloxyethyltrimellitic acid anhydride	Xn, Xi; R 22-36/38-43	0-5%
111-30-8 glutaral	T. C. N; R 23/25-34-42/43-50	0-5%
· Additional information For the wording of the listed ris	k phrases refer to section 16.	

4 First aid measures

- After inhalation Supply fresh air, consult doctor in case of complaints.
- After skin contact immediately wash with water and soap and rinse thoroughly.

· After eve contact

Rinse opened eye for several minutes under running water. Then consult a doctor.

After swallowing immediately call a doctor.

5 Fire fighting measures

- Suitable extinguishing agents CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant toam.
- For safety reasons unsultable extinguishing agents Water with full jet.
- Special hazards caused by the material, its products of combustion or resulting gases: Can form explosive gas-air mixtures.
- Formation of toxic gases is possible during heating or in case of fire.
- · Protective equipment: Mount respiratory protective device.
- Additional Information -

6 Accidental release measures

- · Person-related safety precautions: Wear protective equipment. Keep unprotected persons away.
- · Measures for environmental protection:

Do not allow to penetrate the ground/soil.

No special measures required.

- Measures for cleaning/collecting: Absorb with liquid binding material (diatomite, universal binders, for small amounts tissues).
- Send for recovery or disposal in suitable receptacles.
- · Additional information:

See Section 13 for disposel information.

See Section 8 for information on personal protection equipment.

7 Handling and storage

- ·Handling
 - · Information for safe handling:

Keep receptacles tightly sealed.

Ensure good ventilation/exhaustion at the workplace.

Prevent formation of aerosols.

· Information about protection against explosions and fires:

Keep ignition sources away - Do not smoke.

Protect against electrostatic charges.

- - · Requirements to be met by storerooms and receptacles: No special requirements.
 - Information about storage in one common storage facility: Not required.

(Contd. of page 2) Further information about storage conditions; Keep cool, if possible (not above 25 °C).

8 Exposure controls and personal protection

- Additional Information about design of technical systems: No further data; see item 7.
- · Components with limit values that require monitoring at the workplace:

64-17-5 ethanol

PEL 1900 mg/m³, 1000 ppm REL 1900 mg/m³, 1000 ppm TLV 1880 mg/m³, 1000 ppm

111-30-8 glutaral

REL Short-term value: C 0.8 mg/m³, C 0.2 ppm TLV Short-term value: C 0.2 mg/m³, C 0.05 ppm SEN

amorphes Siliziumdioxid

PEL Short-term value: 80 mg/m²

as % SiO2 REL 6 mg/m³ TLV 10 mg/m³

Additional information: The lists that were valid during the creation were used as basis.

Personal protective equipment

General protective and hygienic measures Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing

Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols.

Avoid contact with the eyes and skin.

Breathing equipment:

Not necessary with efficient local exhaust. If exposition to vapours is possible, use breathing protective mask (fitter A).

· Protection of hands:

If skin contact cannot be avoided, protective gloves are recommended to

avoid possible sensitization.

Solvent resistant gloves

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

For the permanent contact of a maximum of 15 minutes gloves made of the following materials are suitable:

Butyl rubber, BR

- Eye protection: Tightly sealed goggles.

· Body protection: Light weight protective clothing

General Information	
· Form: · Color: · Odar:	Fluid Yellowish Characteristic
Change in condition - Melting point/Melting range: - Boiling point/Boiling range:	: undetermined undetermined
Flash point:	24°C (75°F)
Ignition temperature:	425°C (797°F)
Auto igniting:	Product is not selfigniting.
Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixtures are possible.
Explosion limits:	
· Lower: · Upper:	3.5 Vol % 15.0 Vol %
Vapor pressure at 20°C (68°F):	57 hPa (43 mm Hg)
Density:	Not determined
Solubility in / Miscibility with Water:	Not miscible or difficult to mix

10 Stability and reactivity

- Dangerous reactions No dangerous reactions known
- Dangerous products of decomposition: none Additional information: -

11 Toxicological information

- · Acute toxicity:
 - Primary irritant effect:
 - on the skin: Irritant to skin and mucous membranes.
 - on the eye: Strong imitant with the danger of severe eye injury.
 - Sensitization:
 - Sensitization possible through inhalation.
 - Sensitization possible through skin contact.
- · Additional toxicological information: Hermful

12 Ecological information:

General notes: Avoid transfer into the environment.

13 Disposal considerations

- · Product:
 - Recommendation

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
