 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Wear self-contained respiratory protective device. Wear fully protective suit. Additional information Eliminate all ignition sources if safe to do so. Cool endangered receptacles with water spray. Use large quantities of foam as it is partially destroyed by the product. 	(Cont'd. from page 3
SECTION 6: Accidental release measures	And States
 6.1 Personal precautions, protective equipment and emergency proce Use respiratory protective device against the effects of fumes/dust/aerosol. Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Remove ignition sources. Protect from heat 6.2 Environmental precautions: No special measures required. 6.3 Methods and material for containment and cleaning up: Absorb with non-combustible liquid-binding material (sand, diatomite, acid to Dispose contaminated material as waste according to section 13. Send for recovery or disposal in suitable receptacles. Clean the affected area carefully; suitable cleaners are: Warm water 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information. 	
SECTION 7: Handling and storage	
 7.1 Precautions for safe handling Use only in well ventilated areas. Do not spray on flame or other ignition sources. No smoking. Prevent formation of aerosols. Avoid splashes or spray in enclosed areas. Information about fire - and explosion protection: Highly flammable liquid and vapour. Keep ignition sources away - Do not smoke. Protect against electrostatic charges. 	

Do not spray onto a naked flame or any incandescent material.

	(Cont'd. from page 6
Decomposition temperature:	Not determined.
Self-igniting:	Product is not self-igniting.
Danger of explosion:	Product is not explosive. However, formation of explosive air vapour mixtures are possible.
Explosion limits:	
Lower:	2,0 Vol %
Upper:	12,0 Vol %
Vapour pressure at 20 °C (68 °F):	43 hPa (32 mm Hg)
Density at 20 °C (68 °F):	0,87 g/cm³ (7,26 lbs/gal)
Relative density	Not determined.
Vapour density at 20 °C (68 °F)	2,1 g/cm³ (17,525 lbs/gal)
Evaporation rate	Not determined.
Solubility in / Miscibility with	
water:	Slightly soluble.
Partition coefficient (n-octanol/wate	r): Not determined.
Viscosity:	
Dynamic at 20 °C (68 °F):	3,66 mPas
Kinematic:	Not determined.
9.2 Other information	No further relevant information available.

SECTION 10: Stability and reactivity

10.1 Reactivity No further relevant information available.
10.2 Chemical stability
Thermal decomposition / conditions to be avoided:
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
10.3 Possibility of hazardous reactions
Highly flammable liquid and vapour.
Reacts violently with oxidising agents.
Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomised.
Toxic fumes may be released if heated above the decomposition point.
Used empty containers may contain product gases which form explosive mixtures with air.
10.4 Conditions to avoid
Keep ignition sources away - Do not smoke.
Store away from oxidising agents.
10.5 Incompatible materials: Oxidizing agents
10.6 Hazardous decomposition products:
Under fire conditions only:
Carbon monoxide and carbon dioxide
