Dear Client,

Thank you for your request for SDS information with regards to AMMEX's disposable glove line, work gloves, facemasks, or other personal protective equipment. Under OSHA rules these items are classified as an "Article", and therefore are not subject to SDS requirements. OSHA's definition of an article is as follows:

"Article" means a manufactured item other than a fluid or particle:

- (i) which is formed to a specific shape or design during manufacture;
- (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and
- (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical, and does not pose a physical hazard or health risk to employees.

In addition, exam grade gloves are also excluded since they are considered medical devices (Class 1) and fall under the jurisdiction of the FDA.

The following items in the AMMEX product line do have SDSs available. Heatworks Warmers, AMMEXCare Instant Ice Packs, and our AMMEXCare line of Baby and Adult Wipes, so please contact your representative if you would like copies of these documents.

Sincerely,

A handwritten signature in black ink, appearing to read "Steven Ilg", is positioned above the printed name.
