SAFETY DATA SHEETS

This SDS packet was issued with item: 071051788

The safety data sheets (SDS) in this packet apply to the individual products listed below. Please refer to invoice for specific item number(s).

070992222

Morita Multi Spray

Safety Data Sheet (SDS)

Soction 1 Identification		
Section 1: Identification		
Product name:	Morita Multi Spray	
Manufacturer:	J. MORITA MFG. CORP.	
No:	0201-E01	
Address:	680 Higashihama Minami-Cho, Fushimi-Ku, Kyoto, Japan 612-85	33
Distributor:	J. MORITA USA, INC.	
	9 Mason, Irvine, CA 92618, USA	
Emergency phone number:	CHEMTREC 1-800-424-9300 (US & Canada)	
	CHEMTREC 1-703-527-3887 (Outside US & Canada)	
Section 2: Hazard(s) Identific	eation	
GHS Classification:		
Physical hazards:	Flammable aerosols	Category 1
Fliysicai Hazalus.	Acute oral toxicity	Not classified
	Skin corrosion / irritation	Not classified
	Skin sensitization	Not classified
	Specific target organ systemic toxicity (single exposure)	Category 3 (anesthetic action)
	Specific target organ systemic toxicity (repeated exposure)	Category 1 (liver, lymph nodes)
	Aspiration hazard	Category 1
Label elements:	Pictogram	
		\vee \vee \vee
	Signal word	Danger
Hazard statement:	H222	Extremely flammable aerosol
	H229	Pressurized container: may burst if heated.
	H304	May be fatal if swallowed and enter airways
	H336	May cause drowsiness or dizziness
	H372	Causes damage to organs (Liver, lymph nodes) through prolonged or
		repeated exposure.
Precautionary statements:		
Prevention		
	P102	Keep out of reach of children.
	P210	Keep away from heat/sparks/open flames/hot surfaces.
		No smoking.
	P211	Do not spray on an open flame or other ignition source.
	P251	Pressurized container: Do not pierce or burn, even after use.
	P260	Do not breathe gas / mist / vapors / spray.
	P264	Wash hands thoroughly after handling.
	P270	Do not eat, drink or smoke when using this product.
	P271	Use only outdoors or in a well-ventilated area.
Response	1211	
Rooponoo	P301+P310	If swallowed: Immediately call a poison center or doctor.
	P331	Do NOT induce vomiting.
	P304+P340	If inhaled: Remove victim to fresh air and keep at rest in a position
	1 304+1 340	comfortable for breathing.
	P314	Get medical advice/attention if you feel unwell.
Storago	F314	Get medical advice/attention il you leel unwell.
Storage	P405	Store locked up
		Store locked up.
	P410+P412	Protect from sunlight. Do not expose to temperatures exceeding
	D400 - D000	50 °C/122 °F.
	P403+P233	Store in a well-ventilated place. Keep container tightly closed.
Disposal	B 504	
	P501	Dispose of contents/container in accordance with local/regional/
		national/international regulations (to be specified).
Other		This product is deemed dangerous per ADG Code.

Section 3: Composition/Information on Ingredients

 General use: Formula:
 Lubricant Mixture

 Chemical name
 Refined hydro-carbon oil
 Oiliness Improver
 LPG

 Content
 15 ~ 25 wt%
 1 ~ 10 wt%
 70 ~ 80 wt%

 CAS No.
 8042-47-5
 Confidential
 74-98-6, 106-97-8, 75-28-5

Section 4: First-Aid Measures

In case of inhalation:

· Remove victim to fresh air and keep at rest in a position comfortable for breathing.

· Get medical advice/attention if you feel unwell.

In case of contact with skin:

· After wiping off with paper or cloth, wash with plenty of soap and water.

· If skin irritation occurred, get medical advice/attention.

· Wash contaminated clothing before reuse.

In case of contact with eyes:

· Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists, get medical advice/attention.

In case of swallowed:

 \cdot Do not induce vomiting.

· If swallowed, rinse mouth.

· Get medical advice/attentior Obtainfeel by Global Safety Management, 1-813-435-5161 - www.GSMSDS.com

Section 5: Fire-Fighting Measures

Suitable extinguishing media:

- · Fire foam, powdery extinction media, and carbon dioxide
- Unsuitable extinguishing media:
- Full water jet
- Specific hazards:
 - · Stimulation, the causticity or the toxic fume might be generated by a fire.
 - The combustion gas contains toxic gases such as carbon monoxide.
- Specific extinction method:
 - · For initial fire, use powder, carbon dioxide extinguishing agent.
 - · In case of large-scale fire, use foam or wet chemical.

Section 6: Accidental Release Measures

- Personal precautions protective equipment and emergency procedures:
 - The protective equipment is worn for the exposure prevention, it works, and steam is prevented from coming in contact with the inhalation and the skin.
 The entries other than parties concerned to the surrounding of the leaking place are prohibited.
- Environmental precautions:
 - · Be careful not to discharge the spilled product to rivers and lakes.
 - · Recovery and used waste should be disposed in accordance with regulations.
- Methods and materials for containment and cleaning up:
 - In case of small quantity, recover into empty containers that can be sealed by absorbing them in dry sand, soil, sawdust, cloth etc.
 - In case of large quantity, enclose it in the embankment to prevent spillage and guide it to a safe place and collect it.
- Prevention of secondary disaster:
 - · Quickly remove any ignition sources in the vicinity and prepare fire extinguishing equipment.

Section 7: Handling and Storage

Precautions for safe handling:

- · Wear appropriate protective equipment such as protective glasses or gloves.
- · Acquire SDS / Instruction Manual before use.
- · Do not handle until all safety precautions have been read and understood.
- · Do not generate steam or mist without good reason.
- · Do not inhale mist / vapors / spray.
- · Ventilate the workplace thoroughly.
- · Do not eat, drink, or smoke when handling
- · After handling, wash hands thoroughly
- · Keep fire away from areas where the spray has been used at all times as flammable propellant may still be present.

Conditions for safe storage:

- Store locked up.
 - \cdot Avoid direct sunlight and fire, keep in cool dark place.
 - Ensure good ventilation and keep vapor from staying.
 - Store at temperatures not exceeding 50°C/122 °F.

Section 8: Exposure Controls/Personal Protection

Equipment measures

- · Provide an exhaust system.
- · Use electrical equipment of explosion-proof construction.
- · Provide equipment for washing eye and body washing near the handling place.
- Allowable concentration:
 - · Butane: 500ppm(1200mg/m3) (Japan Society for Occupational Health, 2016)
 - · Aliphatic hydrocarbon gases Alkanes [C1–C4] (Propane, Butane) TWA 1000ppmb (ACGIH, 2012)
- Protective equipment:
 - Respiratory protection
 - Mask for organic gas
 - Hand protection
 - Oil proof gloves
 - Eye protection
 - Eye protection
 - Skin and body protection
 - · Oil resistant long sleeve work clothing

Section 9: Physical and Chemical Properties

Physical state: Color: Odor: pH: Boiling point Melting point Flash point Explosive limit Vapor pressure Specific gravity Solubility Decomposition temperature Othor	Liquid (Aerosols) Colorless Odorless No data No data No data No data No data No data Insoluble in water. Soluble in petroleum solvent. No data
Other	No data No data

Section 10: Stability and Reactivity

Chemical stability: Reactivity Conditions to avoid: Incompatible materials: Stable at room temperature. No reactivity with water. Contact with incompatible materials. Strong oxidizing agent

Section 11: Toxicological Information	
Acute toxicity (oral):	Not classified (as oil) White mineral oil LD50 > 5000mg/kg, (IUCLID) (2011)
Acute toxicity (dermal):	Classification not possible No data
Acute toxicity (mists):	Classification not possible No data
Skin corrosion / irritation:	Not classified
	Crl; KBL (NZW) intracutaneous reactivity PII: 1.0 Investigation by a third party organization
Eye irritation:	Classification not possible No data
Respiratory sensitization:	Classification not possible No data
Skin sensitization:	Not classified
	LLNA stimulation index < 3,
	Investigation by a third party organization Classification not possible No data
Germ cell mutagenicity: Carcinogenicity:	Classification not possible No data
eproductive toxicity:	Classification not possible No data
pecific target organ systemic toxicity (single exposure):	Category 3 (anesthetic action)
	Propane: The opiate potency is shown as an influence on the person. It was assun
	Category 3 because there was fear of [meki] and dizziness.
	Butane; It was thought that there was an opiate potency from the description of t
	person of ACGIH (7th,2001), DEGOTvol.20(2003), PATTY(4th,1994),
	and production art society recommendation (1993) putting and showing
	opiate potency or the central nerve control by the optical density
	inhalation, and assumed Category 3.
pecific target organ systemic toxicity (repeated exposure):	
	White mineral oil NOEL/LOEL: 1.7ma/ka/day, IUCLID(2000)
Aspiration hazard:	category 1 (as oil)
Aspiration nazard.	The kinematic viscosity of hydrocarbon: less than 20.5mm ² /s, at 40°C.
X GHS classification of this product in acco	
	300anoe with 510 2 7232-2014
Section 12: Ecological information	
lazardous to the aquatic environment (acute):	Classification not possible No data
	Classification not possible No data
azardous to the ozone layer: Each component is not listed in the Montreal Proto Section 13: Disposal Considerations he remainder waste: It is necessary to process according to applicat the industrial waste disposal trader who obtains	n/a tocol on substances that deplete the ozone layer. able laws and regulations (Wastes Disposal and Public Cleaning Law and fire protection law, etc.), it consigns the permission such as the prefectural governors who handle it specializing in this, and it processes it.
