SAFETY DATA SHEETS

This SDS packet was issued with item:

075124862

The safety data sheets (SDS) in this packet apply to the individual products listed below. Please refer to invoice for specific item number(s).

075125356

The safety data sheets (SDS) in this packet apply to one or more components included in the items listed below. Items listed below may require one or more SDS. Please refer to invoice for specific item number(s).

076784151

SILICONE EMULSION

ction I - Product and Company Identification

Product Name: SILICONE EMULSION Chemical Name: NA Product Number: 6140400, 500

Family: NA Product Use: Model and Impression material wetting agent Formula: Proprietary Mixture

Manufacturer: KEYSTONE INDUSTRIES

616 Hollywood Ave, Cherry Hill, NJ 08002 Emergency Phone Numbers: (800) 535 - 5053 Information Contacts: (856)-663-4700

Section II - Hazardous Ingredients

Chemical Identity	CAS Numbers	Exposure OSHA	Limits ACGIH	Carcinogen	%
		TWA/STEL	TWA/STEL	IARC/NTP/OSHA	
Poly (Dimethylsiloxane)	63148-62-9	N/E	N/E	Not Listed	<10
Distilled Water	N/A	N/A	N/A	Not Listed	>90

N/E - None Established N/R - Not Reviewed N/DA - No Data Available N/A - Not Applicable

Section III - Hazards Identification

EMERGENCY OVERVIEW

None

Totential Health Effects,	Signs and Symptoms of Exposure:
imary Route of Entry	Inhalation, skin contact, eye contact
Eye	May cause minor irritation. Excess redness and swelling of conjuctiva may occur.
Skin	May cause minor irritation with itching and possible redness
Ingestion	No evidence of harmful effects from available information
Inhalation	Short-term harmful health effects are not expected from vapor generated at ambient temperature.
Sub-Chronic Effects	No adverse effects anticipated from available information
NOTE: Refer to Section 1	1, Toxicological Information for Details

Section IV - First Aid Measures

First Aid for Eye	Flush eyes thoroughly with water for several minutes
First Aid for Skin	Wash skin with soap
First Aid for Inhalation	No emergency anticipated
First Aid for Ingestion	No emergency anticipated

Section V - Fire Fighting Measures Flash Point Flammable Limit Auto-ignition Temperature (vol%) (vol%) (°F) N/DA N/DA none Method: None Extinguishing Media: Non-flammable, after water evaporates, remaining material will burn. All purpose type. Fire Fighting Instructions: Use self contained breathing apparatus when fighting fires in enclosed areas Unusual Hazards: This material may produce a floating fire hazard in extreme fire conditions ction VI - Accidental Release Measures Spill or Release Procedures -Absorb spill with inert material, (e.g. dry sand or earth), then place into a chemical waste

Material Safety Data Sheet

SILICONE EMULSION

Section XIII - Disposable Concentrations Incinerate in furnace or otherwise dispose of in accordance with local, state, and federal regulations. Section XIV - Transport Information Non-hazardous material thus no special shipping instructions. Section XV - Regulatory Information **US Federal Regulations** Clean Air Act: HAP This product does not contain any hazardous air pollutants (HAP's) Clean Air Act: ODS This product neither contains, nor was manufactured with a Class I or Class II ozone depleting substance (ODS). This product contains no chemicals listed under the U.S Clean Clean Water Act: Priority Pollutant Water Act Priority Pollutant List. FDA This product is considered a class 1 product and complies will all FDA regulations The product is not considered hazardous under OSHA Occupational Safety and Health Act RCRÁ This product is not a listed as a RCRA hazardous waste. SARA Title III: Section 302 This product contains no chemicals regulated under Sec. 302 as extremely hazardous substances. This product contains no chemicals regulated under Section 304 SARA Title III: Section 304 as extremely hazardous chemicals for emergency release notification ("CERCLA" List). SARA Title III: Section 311-312: This product is considered not to be hazardous under the OSHA Hazard Communication Standard and is regulated under Section 311-312 (40 CFR 370). SARA Title III: Section 313: This product contains no chemicals that are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372. This product contains chemicals listed on the TSCA inventory TSCA Section 8(b): Inventory: or otherwise complies with TSCA premanufacture notification requirements. State Regulations CA Proposition 65 This product contains no substances known to the State of California to cause cancer and adverse reproductive effects. SAFETY DATA SHEET

Silicone Emulsion

Section 1. Identification

OSHA/HCS status	: While this material is not considered hazardous by the OSHA Hazard Communication
Section 2. Hazar	ds identification
Emergency telephone number (with hours of operation)	: (800) 535-5053
Supplier's details	: Keystone Industries 616 Hollywood Ave. Cherry Hill, NJ 08002 (856) 663-4700
Not applicable.	
Relevant identified uses o	f the substance or mixture and uses advised against
Product use	: Dental Products
Product type	: Liquid.
Product code	: 6140400, 6140500
Other means of identification	: Not available.
GHS product identifier	: Silicone Emulsion

	Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
Classification of the substance or mixture	: Not classified.
	Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 99.6%
GHS label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
Prevention	: Not applicable.
Response	: Not applicable.
Storage	: Not applicable.
Disposal	: Not applicable.
Hazards not otherwise classified	: None known.

Section 3. Composition/information on ingredients

Substance/mixture	
Other means of	
identification	

: Mixture

: Not available.

CAS number/other identifiers

CAS number

: Not applicable.

May contain one or more of the following components in quantities considered hazardous:

Date of issue/Date of revision

Section 3. Composition/information on ingredients

Ingredient name	CAS number	EC number	%
Siloxanes and Silicones, di-Me	63148-62-9	-	1 - 5

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures

Eye contact	 Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation	 Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact	 Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion	: Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed

Potential acute health ef	fects
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/sy	<u>nptoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

Indication of immediate medical attention and special treatment needed, if necessary

Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

Section 5. Fire-fighting measures		
Extinguishing media		
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.	
Unsuitable extinguishing media	: None known.	

Section 5. Fire-fighting measures

	-
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: No specific data.
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

Section 6. Accidental release measures

Personal precautions, protec	tiv	e equipment and emergency procedures
For non-emergency personnel	:	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.
For emergency responders	:	If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	:	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and materials for co	ont	ainment and cleaning up
Small spill	:	Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	:	Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment

water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

Protective measures Advice on general occupational hygiene		Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure controls/personal protection

Control parameters

_			
	national	exposure	
UCCU	оапопа	exposure	IIIIIS
0004	Jacionia	UNDODUIO	

None.

Appropriate engineering controls	:	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Skin protection

Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	: Safety eyewear complying with an approved standard should be used when a risk

assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with sideshields.

Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is
	necessary.

- **Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Other skin protection : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Use a properly fitted, air-purifying or air-fed respirator complying with an approved **Respiratory protection** 5 standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Section 9. Physical and chemical properties

<u>Appearance</u>	
Physical state	: Liquid.
Color	: Green.
Odor	: Minty.
рН	: Not available.
Melting point	: Not available.
Boiling point	: >100°C (>212°F)
Flash point	: Not available.
Evaporation rate	: >1 (butyl acetate = 1)
Lower and upper explosive (flammable) limits	: Not available.
Vapor pressure	: <2.7 kPa (<20 mm Hg) [room temperature]
Vapor density	: >1 [Air = 1]

Date of issue/Date of revision

Section 9. Physical and chemical properties

Relative density	: Not available.
Solubility	: Not available.
Solubility in water	: Not available.
Partition coefficient: n- octanol/water	: Not available.
Auto-ignition temperature	: Not available.
Viscosity	: Not available.

Section 10. Stability and reactivity			
Reactivity	: No specific test data related to reactivity available for this product or its ingredients.		
Chemical stability	: The product is stable.		
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.		
Conditions to avoid	: No specific data.		
Incompatible materials	: No specific data.		
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.		

Section 11. Toxicological information

Information on toxicological effects

Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
Siloxanes and Silicones, di- Me	Eyes - Mild irritant	Rabbit	-	1 hours 100 milligrams	-
	Eyes - Mild irritant	Rabbit	-	24 hours 100 microliters	-
	Eyes - Moderate irritant	Rabbit	-	24 hours 100 microliters	-
	Skin - Mild irritant	Rabbit	-	24 hours 500 microliters	-

Information on the likely routes of exposure	:	Not available.		
Potential acute health effects				
Eye contact	1	No known significant effects or critical hazards.		
Inhalation	:	No known significant effects or critical hazards.		
Skin contact	1	No known significant effects or critical hazards.		
Ingestion	;	No known significant effects or critical hazards.		
Symptoms related to the physical, chemical and toxicological characteristics				
Eye contact	:	No specific data.		
Inhalation	:	No specific data.		
Skin contact	:	No specific data.		
Ingestion	1	No specific data.		

Section 11. Toxicological information

Delayed and immediate effects	s a	and also chronic effects from short and long term exposure
<u>Short term exposure</u>		
Potential immediate effects	:	Not available.
Potential delayed effects	÷	Not available.
Long term exposure		
Potential immediate effects	:	Not available.
Potential delayed effects	÷	Not available.
Potential chronic health effect	cts	<u>5</u>
Not available.		
General	÷	No known significant effects or critical hazards.
Carcinogenicity	÷	No known significant effects or critical hazards.
Mutagenicity	÷	No known significant effects or critical hazards.
Teratogenicity	÷	No known significant effects or critical hazards.
Developmental effects	÷	No known significant effects or critical hazards.
Fertility effects	:	No known significant effects or critical hazards.

Numerical measures of toxicity

Acute toxicity estimates

Not available.

Section 12. Ecological information

<u>Toxicity</u>					
Product/ingredient name	Result	Species	Exposure		
Siloxanes and Silicones, di- Me	Acute LC50 44.5 ppm Fresh water	Daphnia - Daphnia magna - Instar	48 hours		
	Acute LC50 3160 µg/l Fresh water	Fish - Ictalurus punctatus	96 hours		
Bioaccumulative potential		-	•		
Not available.					
<u>Mobility in soil</u>					
Soil/water partition coefficient (Koc)	: Not available.				
Other adverse effects	: No known significant effects or critical hazards.				
Section 13. Dispo	sal considerations				
Disposal methods	of this product, solutions and any by requirements of environmental prote regional local authority requirements via a licensed waste disposal contra	avoided or minimized wherever possible products should at all times comply wi action and waste disposal legislation an b. Dispose of surplus and non-recyclab ctor. Waste should not be disposed of a the requirements of all authorities with	th the d any le products untreated to		

Waste packaging should be recycled. Incineration or landfill should only be considered

Section 13. Disposal considerations

when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

	DOT Classification	TDG Classification	Mexico Classification	ADR/RID	IMDG	IATA
