SAFETY DATA SHEETS

This SDS packet was issued with item: 075895297

The safety data sheets (SDS) in this packet apply to one or more components included in the items listed below. Items listed below may require one or more SDS. Please refer to invoice for specific item number(s).

075895289

<u>IDENTITY:</u>	Trade Name:	Bausch Arti Spot 1	Code:	BK 85 (White)	
Chemical Description:	•	ts (Ethanol, Propanol, gment White 6), Zinc st		cerin, Natural resins, Titaniu	ım
Product Use:	Dental material	: High spot indicator f	or crowns.		

SECTION I

Manufacturer: Dr. Jean Bausch KG Oskar-Schindler-Str. 4 D-50769 Cologne, Germany Tel: 49 221 70936-0 / Fax: 49 221 70936-666262 Distributor: Pulpdent Corporation 80 Oakland Street Watertown, MA 02472 USA Tel.: 1-800-3434342 / 1-617-926-6666 Fax: 1-617-926-6666 24 Hour Emergency Number: 1-800-535-5053

Date Prepared: September 1, 2007

<u>SECTION II - HAZARDOUS</u>	<u>INGREDIENTS</u>	
Ingredients	PEL/TLV	UN Number
Ethyl alcohol	1000 ppm	1170
Ethyl acetate	740 ppm	1173
Propyl alcohol	515 ppm	1274

DOT HAZARD CLASSIFICATION:	Class 3 / Packing group I	I / Flammable liquid
WHMIS CLASSIFICATION:	B-2 Flammable liquid	
NFPA HMIS RATING: HEALTH: 0	FLAMMABILITY: 3	REACTIVITY: 0

SECTION III - PHYSICAL / CHEMICAL CHARACTERISTICS

Boiling Point:192°F / 89.4°CSpecific Gravity:0.81Vapor Pressure:44.6Melting Point:-173°F / -114°CEvaporation Rate:2.8Solubility in water:PartialOdor Threshold:159 ppmAppearance / Odor:White liquid, characteristic alcohol / camphor odor.

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

WARNING! FLAMMABLE. Keep away from heat, sparks, flame, and all other ignition sources. Vapor may form flammable mixtures with air.

Flash Point: 43°F / 6°C (Tag closed cup) Autoignition Temperature: 423°C

Flammable limits: LEL: 2.1 UEL: 13.5

Extinguishing Media: Use dry chemical, alcohol foam, or carbon dioxide. Water may be ineffective, but should be used to keep fire-exposed containers cool.

Special Fire Fighting Procedures: If a leak or spill has not ignited, use water spray to disperse vapors and protect personnel attempting to stop a leak. Use water spray to flush spills away from exposures and to dilute spills to nonflammable mixtures.

Hazardous Combustion Products: Incomplete combustion may produce carbon monoxide and/or carbon dioxide.

Unusual Fire and Explosion Hazards: Firefighters should wear self-contained breathing apparatus in the positive pressure mode with a full face piece when there is a possibility of exposure to smoke, fumes, or hazardous decomposition products.

SECTION V - REACTIVITY DATA

Stability: Generally stable.Conditions to avoid: Heat, flame, sparks.Incompatibility: Avoid acetyl chloride and a wide range of oxidizing agents which may react violently.Hazardous Decomposition Products: Incomplete combustion may produce carbon monoxide /carbon dioxide.Hazardous Polymerization: None.Conditions to avoid: None

REV: September 1, 2007

SECTION VI - HEALTH HAZARD DATA

Summary of Acute Hazards: Minimal health hazard in normal use of small quantities of this product. Prolonged exposure to large quantities of ethyl alcohol is considered a moderate health hazard.

Route of Exposure	Signs & Symptoms
Inhalation	None in normal use. Exposure to >1000 ppm may cause headache,
	drowsiness, lassitude, inability to concentrate, irritation of throat.
Eye Contact	Liquid or vapor may cause irritation.
Skin absorption	None in normal use. Large quantities and prolonged contact may produce symptoms similar to inhalation/ ingestion.
Skin Contact	May cause irritation and defatting of skin on prolonged contact.
Ingestion	None in small quantities of normal use. Large quantities may cause depression of the central nervous system, nausea, vomiting, diarrhea.
	Not a chronic health hazard in normal use. Large quantities of alcohol e carcinogenic or cause Fetal Alcohol Syndrome.
Carcinogenicity	Not a carcinogen under normal conditions of use. IARC has reported a relationship between prolonged drinking of large quantities of alcoholic beverages and cancer of oral cavity, pharynx, esophagus, liver.
Teratogenicity, Mutagenicity and Reprovisit Fetal Alcohol Syndrome in offspring	oductive Toxicity: Ingestion of alcohol by pregnant women is associated
Emergency First Aid Procedures:	
Inhalation	Remove to fresh air. If victim has stopped breathing, give artificial respiration. Get immediate medical attention.
Eye contact	Flush immediately with water for 15 + minutes. Seek medical attention.
Ingestion	Large quantities: Conscious victim, who is able to swallow, should drink water or milk to dilute. Never give anything by mouth to an unconscious or convulsing person. Call physician or Poison Control Center immediately. Induce vomiting only on their advice.
Skin contact	Immediately flush affected area with plenty of cool water. Get medical attention if irritation persists.

SECTION VII - PRECAUTIONS FOR SAFE HANDLING & USE

Handling/Storage Precautions: Store tightly closed, in well-ventilated area; avoid heat, sparks, direct sunlight, oxidizing agents. Protect container from physical damage. Take same precautions with empty container.

Release or Spill: Wear gloves, safety glasses. Pick up with absorbent material (paper, cloth). Rinse spill area with water. Place refuse in closed container. Avoid heat, sparks and oxidizers.

Waste Disposal Method: Follow all government regulations. Other Precautions: Wash hands after use.

SECTION VIII - CONTROL MEASURES

Respiratory Protection: Not necessary under normal conditions of use.

Ventilation: No special ventilation required under normal conditions of use. For large quantities and prolonged exposure, enclosure, local ventilation and dilution are recommended to reduce concentration below TLV.

Protective Gloves: Chemically impervious gloves are recommended.

Eye Protection: Safety glasses are recommended when no eye contact is anticipated. Chemical safety goggles should be worn whenever there is possibility of splashing or other contact with eyes.

Other Protective Equipment: Emergency eye wash fountain. Work / Hygienic Practices: Wash hands after use.

The information presented herein is believed to be factual as it has been derived from the works of persons believed to be qualified experts. However, nothing contained in this information is to be taken as a warranty or representation for which Dr. Jean Bausch KG bears legal responsibility. The user should review any recommendations in the specific context of the intended use to determine whether they are appropriate.

Safety Data Sheet According to Hazard Communication Standard (29 CFR 1910.1200)

Arti-Spot Frühkontaktindikator BK 85

Issue date: 02/06/2015	Version 1.0	Revision date: 02/06/2015
1. Identification		
Product name	Arti-Spot Frühkontaktindikator BK 85	
Synonyms	-	
CAS #	See section 3	
Product code	-	
Product use	Indicator solution. Paint.	
Manufacturer/Supplier		
Supplier(Manufacturer):	Dr. Jean Bausch GmbH & Co. KG	
Address:	Oskar-Schindler-Str. 4, D-50769 Köln	
Contact person(E-mail):	info@BauschDental.de	
Telephone:	+49 (0)221-70936-0	
Fax:	+49 (0)221-70936-66	
Emergency telephone Number:	+49 30 19240 (D-13437 Berlin, 24 hour)	
2. Hazard(s) identification		
GHS classification		
Physical hazards	Flammable liquids	Category 1
Health hazards	Serious eye damage/eye irritation	Category 2A
	Specific target organ toxicity after single	
	exposure	Category 3
Environmental hazards	Not classified	
GHS label elements		
Hazard Pictograms		
Signal word	Danger	
Hazard statement	Extremely flammable liquid and vapor.	
	Causes serious eye irritation.	
	May cause drowsiness or dizziness.	
Precautionary statement		
Prevention	Keep away from heat/sparks/open flames/h	ot surfaces. — No smoking.
	Keep container tightly closed.	
	Ground/bond container and receiving equip	ment.
	Use explosion-proof electrical/ventilating/lig	hting/equipment.
	Use only non-sparking tools.	
	Take precautionary measures against static	discharge.
	Avoid breathing dust/fume/gas/mist/vapors/s	spray.
	Wash thoroughly after handling.	
Material name: Arti-Spot Frühkontaktindikator E		SDS US

	Use only outdoors or in a well-ventilated area.
	Wear protective gloves/protective clothing/eye protection/face protection.
Response	If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with
	water/shower.
	If inhaled: Remove person to fresh air and keep comfortable for breathing.
	If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if
	present and easy to do. Continue rinsing.
	Call a poison center /doctor if you feel unwell.
	If eye irritation persists: Get medical advice/attention.
	In case of fire: Use CO2, extinction powder, water jet spray, alcohol resistant foam for
	extinction.
Storage	Store in a well-ventilated place. Keep container tightly closed. Keep cool.
Disposal	Dispose of contents/container in corroding with local regulation.

3. Composition / information on ingredients

Components	CAS#	Percent
ethanol	64-17-5	30-40%
ethyl acetate	141-78-6	20-30%
diethyl ether	60-29-7	10-<25%
butanone	78-93-3	0-1%

4. First-aid Measures

First aid procedures

•	
Eye contact	Remove contact lenses. Wash thoroughly for several minutes using copious water.
	Seek medical help if necessary.
Skin contact	Remove polluted, soaked clothing immediately, wash thoroughly with plenty of water
	and soap, in case of irritation of the skin (flare), consult a doctor. Unsuitable cleaning
	product: Solvent, thinners.
Inhalation	Remove person from danger area. Supply person with fresh air and consult doctor
	according to symptoms. If the person is unconscious, place in a stable side position
	and consult a doctor.
Ingestion	Rinse the mouth thoroughly with water. Do not induce vomiting - give copious water to
	drink. Consult doctor immediately. Danger of aspiration.
Notes to physician	Treat symptoms.
5. Fire-fighting measures	
Flammable properties	Extremely flammable.
Extinguishing media	
Suitable extinguishing media	Carbon dioxide, extinction powder, water jet spray, alcohol resistant foam.
Unsuitable extinguishing media	High volume water jet.
Firefighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Protective respirator with
	independent air supply. According to size of fire Full protection, if necessary. Dispose
	of contaminated extinction water according to official regulations.
Hazardous combustion products	Oxides of carbon, toxic pyrolysis products, explosive vapour/air mixture, dangerous

Material name: Arti-Spot Frühkontaktindikator BK 85 Version #:1.0 Revision date: 02-06-2015. Issue date: 02-06-2015. vapours heavier than air.

6. Accidental release measures	
Personal precautions	Remove possible causes of ignition - do not smoke. Ensure sufficient supply of air. Avoid inhalation, and contact with eyes or skin. If applicable, caution - risk of slipping.
	For personal protection see section 8.
Environmental precautions	If leakage occurs, dam up. Resolve leaks if this possible without risk. Prevent surface
	and ground-water infiltration, as well as ground penetration. Prevent from entering
	drainage system. If accidental entry into drainage system occurs, inform responsible
	authorities.
Methods for cleaning up	Soak up with absorbent material (e.g. universal binding agent, sand, diatomaceous
	earth) and dispose of according to Section 13. Use no flammable substances. Fill the
	absorbed material into lockable containers. Keep moist. Do not let the solution dry up.
	Eluch residue using conjeus water
	Flush residue using copious water.
7. Handling and storage	
7. Handling and storage	Avoid inhalation of the vapours. Ensure good ventilation. Keep away from sources of
	Avoid inhalation of the vapours. Ensure good ventilation. Keep away from sources of
	Avoid inhalation of the vapours. Ensure good ventilation. Keep away from sources of ignition - Do not smoke. Take measures against electrostatic charging, if appropriate.
	Avoid inhalation of the vapours. Ensure good ventilation. Keep away from sources of ignition - Do not smoke. Take measures against electrostatic charging, if appropriate. Avoid contact with eyes or skin. Eating, drinking, smoking, as well as food-storage, is
	Avoid inhalation of the vapours. Ensure good ventilation. Keep away from sources of ignition - Do not smoke. Take measures against electrostatic charging, if appropriate. Avoid contact with eyes or skin. Eating, drinking, smoking, as well as food-storage, is prohibited in work-room. Observe directions on label and instructions for use. Use
Handling	Avoid inhalation of the vapours. Ensure good ventilation. Keep away from sources of ignition - Do not smoke. Take measures against electrostatic charging, if appropriate. Avoid contact with eyes or skin. Eating, drinking, smoking, as well as food-storage, is prohibited in work-room. Observe directions on label and instructions for use. Use working methods according to operating instructions. For precautions see section 2.2.
Handling	Avoid inhalation of the vapours. Ensure good ventilation. Keep away from sources of ignition - Do not smoke. Take measures against electrostatic charging, if appropriate. Avoid contact with eyes or skin. Eating, drinking, smoking, as well as food-storage, is prohibited in work-room. Observe directions on label and instructions for use. Use working methods according to operating instructions. For precautions see section 2.2. Keep out of access to unauthorised individuals. Not to be stored in gangways or stair

8. Exposure controls / personal protection

Control parameters:

OCCUPATIONAL EXPOSURE LIMITS (OEL)

INGREDIENT DATA:

Source	Ingredient	TWA	STEL	Peak

diethyl ether	500 ppm	500 ppm	19000 ppm
butanone	Not Available	Not Available	Not Available

Ingredient	Original IDLH	Revised IDLH
ethanol	15,000 ppm	3,300 [LEL] ppm
ethyl acetate	10,000 ppm	2,000 [LEL] ppm
diethyl ether	19,000 [LEL] ppm	1,900 [LEL] ppm
butanone	3,000 ppm	3,000 [Unch] ppm

Exposure controls:

Appropriate engineering controls: Ensure good ventilation. This can be achieved by local suction or general air extraction. If this is insufficient to maintain the concentration under the WEL or AGW values, suitable breathing protection should be worn. Applies only if maximum permissible exposure values are listed here.

Individual protection measures, such as personal protective equipment:

Eye / face protection	Tight fitting protective goggles (EN 166).
Skin protection	Solvent resistant protective gloves (EN 374). If applicable, safety gloves made of butyl (EN
	374), protective Neoprene® / polychloroprene gloves (EN 374), protective nitrile gloves (EN
	374), protective hand cream recommended. Protective working garments (e.g. safety shoes
	EN ISO 20345, long-sleeved protective working garments).
Respiratory protection	Normally not necessary. If OES or MEL is exceeded. Gas mask filter A (EN 14387), code colour

Material name: Arti-Spot Frühkontaktindikator BK 85

	brown. Observe wearing time limitations for respiratory protection equipment.
General hygiene	Wash hands, forearms and face thoroughly after handling chemical products, before eating,
considerations	smoking and using the lavatory and at the end of the working period. Keep away from
	foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing.

9. Physical and chemical properties

Appearance	
Physical state	Liquid
Form	Liquid
Color	White
Odor	Alcoholic, Characteristic
Odor threshold	Not available
рН	Not available
Vapor pressure	Not available
Melting point/Freezing point	Not available
initial boiling point and boiling range	Not available
Flash point	-28,5 °C (ISO 1523 (Rapid Equilibrium, closed cup, RECC))
Evaporation rate	Not available
Flammability (solid, gas)	200 °C (Ignition temperature)
Explosion limits	Lower: 2,1 Vol-% upper: 13,5 Vol-%
Vapor density	Not available
Relative density	Not available
Solubility (water)	Insoluble
Partition coefficient	Not available
Auto-ignition temperature	Not available
Decomposition temperature	Not available
Specific gravity	Not available
Density	0,902 g/cm3 (20°C)
Flammability limits in air, upper, %by volume	Not available
Flammability limits in air, lower, % by volume	Not available
VOC	Not available
Percent volatile	Not available
Other data	
Viscosity	Not available
10. Stability and reactivity	
Reactivity	Can form explosive peroxides.
Chemical stability	Explosive when dry.
Conditions to avoid	Incompatible materials. Heating, open flame, ignition sources, electrostatic charge.
	Protect from direct sunlight. Product is light sensitive.
Incompatible materials	Avoid contact with strong oxidizing agents, strong acids, alkali metals.
Hazardous decomposition products	Oxides of carbon, toxic pyrolysis products, explosive vapour/air mixture, dangerous

Material name: Arti-Spot Frühkontaktindikator BK 85
