**(!)** 

Signal Word: WARNING

Restricted to use by dental professional only.

**Hazard Statements** 

H319: Eye irritation. 2. May cause eye irritation. H335: STOT SE. 3. May cause respiratory irritation. H315: Skin irritation. 2. May cause skin irritation.

H317: Sensitization. 1. May cause an allergic skin reaction.

**Precautionary Statements** 

P261: Avoid breathing vapor.

P280: Wear protective gloves and eye protection

P305+P351: If in eyes, rinse cautiously with water for several minutes.

P337+P313: If eye irritation persists, get medical advice/attention.

P302+P352: If on skin, wash with plenty of soap and water.

P333+P313: If irritation or rash occurs, get medical advice/attention.

|     | P410+P411: Protect from sunlight. Store at temperature not exceeding 27°C / 80°F. |                        |                   |                               |   |
|-----|---|------------------------|-------------------|-------------------------------|---|
| 3.0 | Composition   |                        |                   |                               |   |
| 3.1 | Chemical characterization of the preparation:                                     |                        | Acrylate ester mo | onomers in two-part,          | glass-filled, dual-cure paste.                            |

| 6.2 | Environmental prec            | autions                      | Avoid releasing large amounts of uncured material into the environment. Cured / set-up material is, to our knowledge, inert.   |  | naterial into the environment. Cured          |   |  |  |
| 6.3 | Method for clean up           | )                            | Conta<br>Collect<br>and w  | t for disposal in a  | al. Absorb or wipe up<br>covered container. V | p spill with paper towels or cloths.<br>Wash spill area with alcohol or soap                          |  |  |

# **Safety Data Sheet**

| 7.0                                 | Handling and Storage                      |   |
|-------------------------------------|---|---|
| 7.1                                 | Handling                                  | For use only by dental professionals. Follow good hygiene practices. Avoid direct/strong light sources, temperature extremes (>27°C/80°F, <5°C/40°F) contamination and cross contamination. Recap immediately after use.  |
| 7.2                                 | Storage                                   | Store product tightly capped in original container at cool room temperature (<25°C). Avoid direct, strong light, sources of ignition and extremes o temperature. Shelf life for unopened product is two years from date o manufacture, provided that the material has been stored properly. |
| 7.3                                 | Specific uses                             | Dental restorative materials  |
| 8.0                                 | Exposure Controls / Personal Protect      | ion   |
| 8.1<br>8.2                          | Exposure limit values Exposure controls   | PEL: Not established. TLV: Not established.   |
| 8.2.1                               | Occupational exposure controls            | No special equipment required under normal conditions of use.   |
| 8.2.1.1                             | Respiratory protection                    | Good general ventilation will control airborne vapors from uncured material.  |
| 8.2.1.2                             | Hand protection                           | No special requirements other than the usual surgical gloves.   |
| 8.2.1.3                             | Eye protection                            | No special requirements other than the usual safety glasses.  |
| 8.2.1.4                             | Skin protection                           | Good personal hygiene and safety practices; wearing a lab coat  |
| 8.2.1.5                             | Other controls                            | Emergency eye wash fountain should be available. Wash hands after use.  |
| 8.2.2                               | Environmental exposure controls           | Cure material before disposing.   |
| 9.0                                 | Physical and Chemical Properties          |   |

# **Safety Data Sheet**

| 10.0 | Stability and reactivity                             |  |
|------|--|--|
| 10.1 | Conditions to avoid                                  | Temperature > 38°C, intense light, cross-contamination.  |
| 10.2 | Materials to avoid                                   | Reducing and oxidizing agents, peroxides, amines.  |
| 10.3 | Hazardous decomposition products                     | Under fire conditions and with amounts greater than that supplied in this product, hazardous polymerization may occur with heat build-up release of carbon monoxide, carbon dioxide, and oxides of nitrogen. |
| 10.4 | Further information                                  | Stable material if stored and used as directed. Polymerization will occur when light-cured material is exposed to direct light.  |
| 11.0 | Toxicological information                            |  |
| 11.1 | Acute toxicity                                       | Not toxic. Minimal health hazard under normal conditions of use.   |
| 11.2 | Irritation and corrosiveness                         | May be irritating to eyes, respiratory tract, mucous membranes or skin on contact or with prolonged exposure.  |
| 11.3 | Sensitization  | May be sensitizing. Prolonged or frequent skin contact may cause allergic skin reactions in some susceptible individuals.  |
| 11.4 | Sub-acute, sub-chronic and prolonged toxicity        | Prolonged and/or frequent skin contact may cause allergic skin reactions in susceptible individuals.   |
| 11.5 | Carcinogenicity, Mutagenicity, Reproductive Toxicity | None known   |
| 11.6 | Empirical data                                       | Not available  |
| 11.7 | Clinical experience                                  | Has been used safely and effectively by dentists in the US and internationally for more than 10 years with no reports of adverse events.   |
| 12.0 | Ecological Information                               |  |
| 12.1 | Ecotoxicity  | Avoid release of uncured material into the environment. To the best of our knowledge, polymerized material is inert. No other information is available. Follow all government regulations.                   |
| 13.0 | Disposal Considerations                              |  |
| 13.1 | Regulations  | Follow all local and national government regulations in disposing material or contaminated packaging.  |
| 14.0 | Transport Information                                |  |
| 14.1 | Restrictions   | None. Not regulated.   |
| 15.0 | Regulatory Information                               |  |
| 15.1 | EU   | Class IIa medical device under MDD 93/42/EEC.  |
| 15.2 | US FDA   | Class II medical device  |
| 15.3 | Health Canada  | Class III medical device   |
| 16.0 | Other information                                    |  |
| 16.1 | List of relevant R phrases                           | R 36 / 3 7/ 38: Irritating to eyes, respiratory system and skin. R 43: Sensitizing by skin contact.  |

# **Safety Data Sheet**

| 16.2 | Hazard Statements                                     | H319: Eye irritation. Hazard category 2. H335: Specific Target Organ Toxicity - Single exposure; hazard category. 3. Respiratory tract irritation. H315: Skin irritation. Hazard category 2. H317: Skin Sensitization. Hazard category 1.   |
|------|---|---|

Hazard Pictograms

Signal Word: WARNING

Restricted to use by dental professional only.

#### **Hazard Statements**

H319: Eye irritation. 2. May cause eye irritation. H335: STOT SE. 3. May cause respiratory irritation. H315: Skin irritation. 2. May cause skin irritation.

H317: Sensitization. 1. May cause an allergic skin reaction.

#### **Precautionary Statements**

P261: Avoid breathing vapor.

P280: Wear protective gloves and eye protection

P305+P351: If in eyes, rinse cautiously with water for several minutes.

P337+P313: If eye irritation persists, get medical advice/attention.

P302+P352: If on skin, wash with plenty of soap and water.

P333+P313: If irritation or rash occurs, get medical advice/attention.

P410+P411: Protect from sunlight. Store at temperature not exceeding 27°C / 80°F.

# **Safety Data Sheet**

| 10.0 | Stability and reactivity                             |  |
|------|--|--|
| 10.1 | Conditions to avoid                                  | Temperature > 38°C, intense light, cross-contamination.  |
| 10.2 | Materials to avoid                                   | Reducing and oxidizing agents, peroxides, amines.  |
| 10.3 | Hazardous decomposition products                     | Under fire conditions and with amounts greater than that supplied in this product, hazardous polymerization may occur with heat build-up release of carbon monoxide, carbon dioxide, and oxides of nitrogen. |
| 10.4 | Further information                                  | Stable material if stored and used as directed. Polymerization will occur when light-cured material is exposed to direct light.  |
| 11.0 | Toxicological information                            |  |
| 11.1 | Acute toxicity                                       | Not toxic. Minimal health hazard under normal conditions of use.   |
| 11.2 | Irritation and corrosiveness                         | May be irritating to eyes, respiratory tract, mucous membranes or skin on contact or with prolonged exposure.  |
| 11.3 | Sensitization  | May be sensitizing. Prolonged or frequent skin contact may cause allergic skin reactions in some susceptible individuals.  |
| 11.4 | Sub-acute, sub-chronic and prolonged toxicity        | Prolonged and/or frequent skin contact may cause allergic skin reactions in susceptible individuals.   |
| 11.5 | Carcinogenicity, Mutagenicity, Reproductive Toxicity | None known   |
| 11.6 | Empirical data                                       | Not available  |
| 11.7 | Clinical experience                                  | Has been used safely and effectively by dentists in the US and internationally for more than 10 years with no reports of adverse events.   |
| 12.0 | Ecological Information                               |  |
| 12.1 | Ecotoxicity  | Avoid release of uncured material into the environment. To the best of our knowledge, polymerized material is inert. No other information is available. Follow all government regulations.                   |
| 13.0 | Disposal Considerations                              |  |
| 13.1 | Regulations  | Follow all local and national government regulations in disposing material or contaminated packaging.  |
| 14.0 | Transport Information                                |  |
| 14.1 | Restrictions   | None. Not regulated.   |
| 15.0 | Regulatory Information                               |  |
| 15.1 | EU   | Class IIa medical device under MDD 93/42/EEC.  |
| 15.2 | US FDA   | Class II medical device  |
| 15.3 | Health Canada  | Class III medical device   |
| 16.0 | Other information                                    |  |
| 16.1 | List of relevant R phrases                           | R 36 / 3 7/ 38: Irritating to eyes, respiratory system and skin. R 43: Sensitizing by skin contact.  |

# **Safety Data Sheet**
