# **SAFETY DATA SHEETS**

# This SDS packet was issued with item:

076371074

N/A

# SAFETY DATA SHEET

# SECTION 1) CHEMICAL PRODUCT AND SUPPLIER'S IDENTIFICATION

Product ID: SOU01009

Product Name: BIO LUBE HANDPIECE CLEANER

Revision Date: Feb 18, 2016 Date Printed: Feb 18, 2016

Version: 1.0 Supersedes Date: N.A.

Manufacturer's Name: Southland Distribution & Sales

Address: 4003 ENTERPRISE COURT AUGUSTA, GA, US, 30907

Emergency Phone: CHEMTREC U.S.:1-800-424-9300 INTERNATIONAL CALLS: 1-703-527-3887

Information Phone Number: 1-800-880-0240

Fax:

Product/Recommended Uses: DENTAL HANDPIECE CLEANER

## **SECTION 2) HAZARDS IDENTIFICATION**

#### Classification:

Skin Irritation - Category 2

Eye Irritation - Category 2A

Acute aquatic toxicity - Category 3

Aerosols Category 3

Chronic aquatic toxicity - Category 3

### Pictograms:

# Signal Word:

Warning

## **Hazardous Statements - Physical:**

H229 - Pressurised container: May burst if heated

# **Hazardous Statements - Health:**

H315 - Causes skin irritation

H319 - Causes serious eye irritation

## **Hazardous Statements - Environmental:**

H402 - Harmful to aquatic life

H412 - Harmful to aquatic life with long lasting effects

## **Precautionary Statements - General:**

P101 - If medical advice is needed, have product container or label at hand.

P102 - Keep out of reach of children.

P103 - Read label before use.

# **Precautionary Statements - Prevention:**

P264 - Wash thoroughly after handling.

P280 - Wear protective gloves/protective clothing/eye protection/face protection.

SOU01009 Page 1 of 7

- P273 Avoid release to the environment.
- P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- P251 Do not pierce or burn, even after use.

#### **Precautionary Statements - Response:**

- P302 + P352 IF ON SKIN: Wash with plenty of water.
- P321 For specific treatment see section 4.
- P332 + P313 If skin irritation occurs: Get medical advice/attention.
- P362 + P364 Take off contaminated clothing. And wash it before reuse.
- P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P337 + P313 If eye irritation persists: Get medical advice/attention.

### **Precautionary Statements - Storage:**

P410 + P412 - Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.

#### **Precautionary Statements - Disposal:**

P501 - Dispose of contents/container to disposal recycling center. Under RCRA it is the responsibility of the user of the product to determine at the time of disposal whether the product meets RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state and local laws.

#### Acute toxicity of less than one percent of the mixture is unknown

## **SECTION 3) COMPOSITION / INFORMATION ON INGREDIENTS**

CAS	Chemical Name	% By Weight
0000156-60-5	1,2-DICHLOROETHYLENE	49% - 80%
0163702-05-4	ETHOXY-1,1,2,2,3,3,4,4,4-NONAFLUORO	5% - 12%
0163702-06-5	ETHOXYDIFLUOROMETHY-1,1,1,2,3,3,3-H	5% - 12%
0163702-07-6	NONAFLUORO-4-METHOXYBUTANE,1,1,1,2,	3% - 6%
0163702-08-7	2-(difluoromethoxymethyl)-1,1,1,2,3,3,3-heptafluoropropane	3% - 6%

# **SECTION 4) FIRST-AID MEASURES**

#### Inhalation:

Remove source of exposure or move person to fresh air and keep comfortable for breathing.

If exposed/feel unwell/concerned: Call a POISON CENTER/doctor.

Eliminate all ignition sources if safe to do so.

### **Skin Contact:**

Take off contaminated clothing, shoes and leather goods (e.g. watchbands, belts). Wash with plenty of lukewarm, gently flowing water for a duration of 15-20 minutes. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before re-use.

IF exposed or concerned: Get medical advice/attention.

# **Eye Contact:**

Remove source of exposure or move person to fresh air. Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing for a duration of 15-20 minutes. Take care not to rinse contaminated water into the unaffected eye or onto the face. If eye irritation persists: Get medical advice/attention.

## Ingestion:

Immediately call a POISON CENTER/doctor. Do NOT induce vomiting. If vomiting occurs naturally, lie on your side, in the recovery position. Do not give anything.

# **SECTION 5) FIRE-FIGHTING MEASURES**

#### Suitable Extinguishing Media:

Dry chemical, foam, carbon dioxide is recommended. Water spray is recommended to cool or protect exposed materials or structures. Carbon dioxide can displace oxygen. Use caution when applying carbon dioxide in confined spaces. Simultaneous use of foam and water on the same surface is to be avoided as water destroys the foam. Sand or earth may be used for small fires only.

Do not direct a solid stream of water or foam into hot, burning pools this may results in frothing and increase fire intensity.

## **Unsuitable Extinguishing Media:**

SOU01009 Page 2 of 7

No data available.

#### Specific Hazards in Case of Fire:

Contents under pressure. Keep away from ignition sources and open flames. Exposure of containers to extreme heat and flames can cause them to rupture often with violent force. Product is highly flammable and forms explosive mixtures with air, oxygen, and all oxidizing agents. Vapors are heavier than air and may travel along surfaces to remote ignition sources and flash back.

During a fire, irritating and highly toxic gases may be generated during combustion or decomposition. High temperatures can cause sealed containers to rupture due to a build up of internal pressures. Cool with water.

DO NOT cut, drill, grind, or weld near full, partially full, or empty product containers.

Container could potentially burst or be punctured upon mechanical impact, releasing flammable vapors.

#### **Fire-Fighting Procedures:**

Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from immediate hazard area if it can be done safely. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Water may be ineffective but can be used to cool containers exposed to heat or flame. Caution should be exercised when using water or foam as frothing may occur, especially if sprayed into containers of hot, burning liquid.

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

#### **Special Protective Actions:**

Wear protective pressure self-contained breathing apparatus (SCBA) and full turnout gear.

## **SECTION 6) ACCIDENTAL RELEASE MEASURES**

## **Emergency Procedure:**

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).

Do not touch or walk through spilled material.

Isolate hazard area and keep unnecessary people away. Remove all possible sources of ignition in the surrounding area. Notify authorities if any exposure to the general public or the environment occurs or is likely to occur.

If spilled material is cleaned up using a regulated solvent, the resulting waste mixture may be regulated.

#### **Recommended Equipment:**

Positive pressure, full-facepiece self-contained breathing apparatus (SCBA), or positive pressure supplied air respirator with escape SCBA (NIOSH approved).

#### **Personal Precautions:**

Avoid breathing vapor. Avoid contact with skin, eye or clothing. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing.

#### **Environmental Precautions:**

Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers.

#### Methods and Materials for Containment and Cleaning Up:

Cover spills with inert absorbent and place in closed chemical waste containers.

## **SECTION 7) HANDLING AND STORAGE**

#### General:

Wash hands after use.

Do not get in eyes, on skin or on clothing.

Do not breathe vapors or mists.

Use good personal hygiene practices.

Eating, drinking and smoking in work areas is prohibited.

Remove contaminated clothing and protective equipment before entering eating areas.

Eyewash stations and showers should be available in areas where this material is used and stored.

## **Ventilation Requirements:**

Use only with adequate ventilation to control air contaminants to their exposure limits. The use of local ventilation is recommended to control emissions near the source.

## **Storage Room Requirements:**

Keep container(s) tightly closed and properly labeled. Store in cool, dry, well-ventilated areas away from heat, direct sunlight, strong oxidizers and any incompatibilities. Store in approved containers and protect against physical damage. Keep containers securely sealed when not in use. Indoor storage should meet OSHA standards and appropriate fire codes. Containers that have been opened must be carefully resealed to prevent leakage. Empty containers retain residue and may be dangerous.

Use non-sparking ventilation systems, approved explosion-proof equipment and intrinsically safe electrical systems in areas where this product is used and stored.

Do not cut, drill, grind, weld or perform similar operations on or near containers. Do not pressurize containers to empty them.

SOU01009 Page 3 of 7

### SECTION 8) EXPOSURE CONTROLS/PERSONAL PROTECTION

## **Eye Protection:**

Wear eye protection with side shields or goggles. Wear indirect-vent, impact and splash resistant goggles when working with liquids. If additional protection is needed for entire face, use in combination with a face shield.

#### **Skin Protection:**

Use of gloves approved to relevant standards made from the following materials may provide suitable chemical protection: PVC, neoprene or nitrile rubber gloves. Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, glove thickness, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Use of an apron and over- boots of chemically impervious materials such as neoprene or nitrile rubber is recommended to avoid skin sensitization. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Launder soiled clothes or properly disposed of contaminated material, which cannot be decontaminated.

#### **Respiratory Protection:**

If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker, a respiratory protection program that meets or is equivalent to OSHA 29 CFR 1910.134 and ANSI Z88.2 should be followed. Check with respiratory protective equipment suppliers.

## **Appropriate Engineering Controls:**

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.

## **SECTION 10) STABILITY AND REACTIVITY**

VOC Composite Partial Pressure

### Stability:

Material is stable at standard temperature and pressure.

#### **Conditions to Avoid:**

Keep away from direct sunlight and other sources of ignition.

N.A.

Dropping containers may cause bursting.

#### **Hazardous Reactions/Polymerization:**

Will not occur

## **Incompatible Materials:**

Avoid strong oxidizers, reducers, acids, and alkalis.

## **Hazardous Decomposition Products:**

No data available.

# **SECTION 11) TOXICOLOGICAL INFORMATION**

## Skin Corrosion/Irritation:

Prolonged or repeated contact with this product may dry and/or defat the skin. This product may be harmful if it is absorbed through the skin.

Causes skin irritation

## Serious Eye Damage/Irritation:

Eye contact may lead to permanent damage if not treated promptly.

Liquid or vapors may irritate the eyes.

Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Eye contact may lead to permanent damage if not treated promptly.

Causes serious eye irritation

# Respiratory/Skin Sensitization:

No Data Available

# Germ Cell Mutagenicity:

No Data Available

# Carcinogenicity:

No Data Available

### **Reproductive Toxicity:**

SOU01009 Page 5 of 7

No Data Available

#### **Specific Target Organ Toxicity - Single Exposure:**

No Data Available

## **Specific Target Organ Toxicity - Repeated Exposure:**

Prolonged exposure may cause damage to her central nervous system, lungs, skin and eyes.

#### **Aspiration Hazard:**

No Data Available

## **Acute Toxicity:**

If inhaled, may cause dizziness, nausea, upper respiratory irritation, drowsiness, mental depression or narcosis, difficulty in breathing, irregular heart beats.

# **SECTION 12) ECOLOGICAL INFORMATION**

## **Toxicity:**

Harmful to aquatic life

Harmful to aquatic life with long lasting effects

## Persistence and Degradability:

No data available.

#### **Bio-accumulative Potential:**

No data available.

## Mobility in Soil:

No data available.

#### Other Adverse Effects:

No data available.

## **SECTION 13) DISPOSAL CONSIDERATIONS**

## Waste Disposal:

Under RCRA it is the responsibility of the user of the product to determine at the time of disposal whether the product meets RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state and local laws.

Empty Containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld or use for any other purposes. Return drums to reclamation centers for proper cleaning and reuse.

## **SECTION 14) TRANSPORT INFORMATION**

#### **U.S. DOT Information:**

Ground Transportation: (Continental United States, Canada & Mexico): Limited Quantity

## **IMDG Information:**

Shipping Name: Aerosols UN/NA #: 1950 Hazard Class: 2.2

Required Placard: Limited Quantity Marine Pollutant: No data available

#### **IATA Information:**

We do NOT recommend this product to be shipped via air. It would need to be repacked by an authorized packing company and the DG would have to be completed by a licensed hazardous material shipping company.
