Eye Contact: Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid, if irritation persists.

Skin Contact: Flush skin with plenty of soap and water for at least 15 minutes while removing contaminated clothing and shoes. Get medical aid if redness or irritation persists for more than 30 minutes.

Inhalation: Remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Seek immediate medical attention.

Ingestion: Do not induce vomiting unless medical advice is given from a professional. Get medical attention immediately and drink at least 12 oz. of water.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/Injuries: Irritation or burning sensation may be experienced to skins, eyes, and mucosal tissue. Redness or white patches may become evident.

4.3. Indication of immediate medical attention and special treatment needed

Consult a physician or contact Poison Control Center if chemical solution is ingested in large amounts. Physicians are required to treat victim symptomatically.

Section 5: Fire-Fighting Measures

5.1. Suitable Extinguishing Media:

Use water spray or Class A extinguisher.

5.2. Fire Fighting Procedures:

Evacuate all personnel. Do not flush waste down sewers or other drainage systems. Exposed firefighters must wear NIOSH-approved positive pressure, self-contained breathing apparatus with full-face mask and full protective clothing.

5.3. Unusual Fire and Explosion Hazards:

Explosion risk when combined with metals, some acids, and organic material.

5.4. Combustion Products:

Carbon monoxide, carbon dioxide, nitrogen oxides, and oxygen.

Section 6: Accidental Release Measures

6.1. Personal Precautions, Protective Equipment, and Emergency Procedures

Wear proper personal protective equipment as indicated in Section 8. Follow instructions listed in Section 6.3 to follow clean up procedures.

6.2. Environmental Precautions

Follow all government regulations for waste disposal. Prevent release to the environment if possible. Do not flush waste into sewer or drains that may lead to waterways.

6.3. Methods and Materials for Containment and Cleaning Up

Small Spills: Wipe up excess with wet cloth. Use wet cloth or mop to remove residual material.

Large Spills: Keep material moist using a water spray. Create a perimeter – do not let material enter drains or sewage systems. Contact local officials for collect and removal of material.

Section 7: Handling and Storage

7.1. Handling

For intraoral use only by trained and experienced dental professionals. Take-home whitening can be used by patients given a dental professional's approval. Follow good hygiene practices. Do not smoke, eat or drink while using. Use suitable protective equipment when handling. Wash thoroughly after handling and avoid any chemical contact with eyes, skin, and clothing. Keep syringes tightly closed to avoid inhalation or accidental ingestion. Use with adequate ventilation.

7.2. Storage

Keep refrigerated and do not store above 40°F (5°C) for extended periods. Do not freeze. Shelf life is thirty months from date of manufacture, provided that it is stored properly.
