First Aid Measures

General Advice

Immediately call a poison center or doctor/physician.

Eye Contact

Immediately flush eyes with plenty of cool, clean water for at least 15 minutes. Keep eyelids apart to maintain maximum contact with the water. Do not allow the individual to rub their eyes. Get immediate medical attention.

Skin Contact

Remove contaminated clothing and foot wear. Wash thoroughly with water and do not reuse clothing until properly cleaned. Discard foot wear. If a rash should develop, get medical attention.

Inhalation

Immediately remove individual to fresh air. If individual has stopped breathing, give artificial respiration. Get immediate medical attention.

Ingestion

If victim is conscious and able to swallow, quickly have the victim drink water or milk to dilute. Do not give anything by mouth if victim is unconscious or is having convulsions. Induce vomiting only if advised to do so by a physician or poison control center. Contact a physician or poison control center immediately.

May cause irritation similar to a rash with localized edema, reddening and raised lesions. There is no direct data available pertaining to the hazards associated with ingestion of this product. As with most chemicals, ingestion may cause gastrointestinal irritation accompanied by nausea, vomiting and diarrhea.

Indication of any immediate medical attention and special treatment needed

Notes to Physician

There is no direct data available pertaining for aggravation of existing medical conditions by this product.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Water spray (fog). Dry chemical. Foam. Carbon dioxide (CO₂).

Unsuitable Extinguishing Media Not determined.

Specific Hazards Arising from the Chemical

Not determined.

Hazardous Combustion Products Carbon oxides.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Do not direct a solid stream of water or foam into hot, burning pools; this may cause frothing and increase fire intensity.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions

Use personal protective equipment as required.

Methods and material for containment and cleaning up

Methods for Containment

Prevent further leakage or spillage if safe to do so.

Methods for Clean-Up

Land release: This material may cause ground water contamination. Contain as much material as possible. Begin a containerization process as soon as practical. Rinse spill area with water after cleanup is complete and containerize all rinse water. Air release: Vapors may be suppressed by the use of a water fog. Contain all run-off water for proper disposal. Water release: This material is soluble/ dispersible in water. Stop source of spill if safe to do so. Divert all flow and contain. Remove and containerize or neutralize in place, then remove for proper disposal.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on Safe Handling

This material is safe to store in well-ventilated areas at ambient temperatures. Keep containers closed when not in use to prevent evaporative losses and possible contamination. Do not eat, drink or smoke when using this product. Do not breathe dust/fume/gas/mist/vapors/spray. Wash face, hands, and any exposed skin thoroughly after handling. Wear protective gloves/protective clothing and eye/face protection.
